ANALYSIS OF LECTURER EVALUATION BY STUDENTS -2018-19 ACTION TAKEN REPORT

The Principal of the college ordered the IQAC Coordinator to chalk out a mechanism to obtain the Feedback from the students to evaluate every lecturer performance for the Academic year 2018-19. For this the IQAC planned to obtain the feedback of all the lecturers randomly (by taking sample 10 for each class) and obtained the feedback for the entire academic year. As the feedback is taken every month and consolidated, finally aggregate score of every lecturer was recorded. In this connection the IQAC chalked out a mechanism by appointing a lecturer in charge for taking feedback of the other subject lecturer randomly. (copy enclosed).

During the analysis of a lecturer evaluation by students, as per the aggregate scores obtained by the lecturers the following points are identified and same is informed to the concerned lecturer through there department HODs for their performance improvement in the next academic year.

1. The lecturers who obtained the aggregate score more than 75% are appreciated and requested to improve the score in the coming years.
2. The lecturers who obtained their aggregate score less than 75% are requested to improve their performance in the coming years and gave suggestions to improve their performance in which areas they are weak as identified based on their consolidated feedback forms.
3. All the lecturers are requested to see that there is more clarity in the subject while delivering their lectures in the class room.
4. All the lecturers are requested to utilize the ICT facilities in their teaching.
5. All the lecturers are also requested to see that they are fairer while evaluating the examination papers of the students.
